What Are your Strengths?

We all have areas that we are stronger in than others. We MUST learn from one another, to work together to build a stronger union. Do you have any specialized talents, training or educational background that you can and are willing to share with your CWA family? Building a stronger union depends on the active support of every member, Steward and officer. More knowledge equals more power. Please tell us how you are willing to contribute your strengths.

And Another Thing

Let us know if there are any training classes that you're interested in as a member and/or classes that you think the members will be interested in attending. If there are any comments you'd like to share with your education committee please add that information below.
